Steps to reproduce.

With a Visual JSF project open and a web page open in the visual designer do the following.

1. Open the Library Manager and notice the list of libraries.

braries:	Library Name:		
Absolute Layout	,	Absolute Layout	
Beans Binding			
CopyLibs Task		Classpath Sources Javadoc	
Exception Handler	Library Clas	snath:	
GWT1.4.60			
🛃 Jasypt – Simple Encryption 🛛 🦳	7Application.	s/NetBeans/NetBeans 6 Add JAR/Folde	r)
Java DB Driver			
Java Tree API		Remove	
JAX-RPC (JWSDP 1.6)			
JAX-WS 2.1		(Move Up	
JAXB 2.1		Move Down	
JDBC Design-Time Support – De JDBC Run-Time Support – Depre		Move bown	_
JSF 1.1.02			
JSF 1.2			
JSTL 1.1			
JUnit 3.8.2)•(
New Library (Remove			

2. Install the "Visual JSF" patch (1.0.2).

Welc	ome to the N		ans IDE Installe n Installer		
The i	installer will d	etBeans IDE Plugi ownload, verify and	d then install the	selected plugins	s.
a					
-					
T	he following p	olugins will be upda	ted:		
	Visual JSI	F [1.0.2]			
r					
,					
4					
5					
8					
		Help	< Back	(Next >)	Cancel
		Cricip	(Duck	(Inches)	Cuncer

3. restart the IDE as directed.

000	NetBeans IDE Installer
Restart NetBeans ID Restart NetBeans IDE	DE to complete installation. E to finish plugin installation.
The NetReans ID	E Installer has successfully installed the following
plugins: Visual JSF	e instance has successivily instance the following
Visual JSF	
Restart IDE N	1
Restart IDE N Restart IDE L	
O Restart IDE E	
	(Help) (Finish) (Cancel

4. Open the Library Manager and notices the list of libraries.

5. From the Plugin Manager, go to the installed tab, select the "Visual JSF" plugin and click "uninstall".

					Search:
